Property for sale in Almeria.

A renovated town house in the Sufli area of Almeria, located in a typical peaceful Spanish white village with narrow streets and slopes, and very good views.

The house comprises semi-basement with a bedroom that maintains the same temperature in summer as in winter.

On the ground floor there is a dining room, fitted kitchen, living room and bathroom; on the first floor is one double bedroom.

The property is fully renovated and ready to live. In the village there are all the necessary services for daily living such as shop, pharmacy, school, bar medical center, town hall, sport center. Just 5 minutes in the car we can find further services such as banks and larger supermarkets.

A great starter property in Almeria.
