A traditional village property in Los Cerricos in need of renovation. The property comprises a building plot of approximately 300m² and 4,350m² of land.

There is limited space immediately outside the front of the property, however inside it is deceptively large with a lower floor with some renovated rooms and an upper floor. Parts of the property are habitable whilst other parts need considerable renovation.

This is an ideal project for someone who wants to take on the work. The property could be made into a beautiful village property.
